<p><i>cc filed in</i></p> <p><i>copy filed in</i></p> <p><b>MEETING ARRANGEMENTS:</b></p> <p>1. The initial contact was arranged at the previous meeting and took place at the Lotsendienst at the Munich end of the Salzburg Autobahn at 1200. When GRIMPASTE drove by in his Volkswagen, followed him to a garage where GRIMPASTE boarded his car for the week. We proceeded to Holzkirchen where a room was engaged in "Die Alte Post" in alias (Note: Both and GRIMPASTE were carrying in alias). We then proceeded to the Flint Kaserne demolition range north of Bad Toelz to meet our instructors from the 10th Special Forces Group (Sgts. 1st Class John W. ROY and (fnu) BERTRAND).</p> <p><b>FUTURE CONTACT:</b></p> <p>2. The next regular contact is scheduled for 13 June 1962 at 1300 or 2100 hours. GRIMPASTE is to write to the Salzburg Box and indicate which time he will be able to meet.</p> <p><b>OPERATIONAL:</b></p> <p>3. The following is a schedule of training taken by GRIMPASTE during the week of 21 May 1962.</p> <p><u>Monday 21 May</u></p> <p>0900 - Leave Berchtesgaden via QP vehicle (Checked in at Munich for radio gear - no luck.)</p> <p>1210 - Picked up GRIMPASTE.</p> <p>1300 - Arrived Holzkirchen - engaged a double room in "Die Alte Post".</p> <p>1400 - Arrived Bad Toelz Range house for initial meeting with Sgts. 1st Class John W. ROY and (fnu) BERTRAND ("Bert"). introduced himself as and GRIMPASTE as The 10th Special Forces personnel all used true name. The general course of instruction was presented for comment and suggestions. The training actually began with compass reading and land navigation which was finished off with a compass problem laid out on the range covering several kilometers and requiring some three hours to work. The last half of the problem was run after dark. The exercise was quite useful and GRIMPASTE did well.</p> <p>2100 - Returned to Holzkirchen for the night. (GRIMPASTE had been assigned home work which required about two hours.)</p> <p><u>Tuesday 22 May (rain all day)</u></p> <p>0800 - Met at the Range house by Sgt. BERTRAND who took us back into a survival area where he delivered a lecture on first aid (his primary MOS is Medic) and followed this with a lecture and demonstration on survival. Various shelters were displayed along with numerous traps for catching game. The demonstration was highlighted by the preparation and cooking of a live rabbit. (We planned the same fate for a chicken who taught us one of the cardinal rules of survival, "you have to catch it to eat it", when it leapt from the box and rapidly departed the area with a guerrilla fighting Special Forces sergeant.</p>

<p style="text-align: center;">in hot pursuit with axe in hand. The chicken won!)</p> <p><u>Wednesday 23 May</u> (beautiful sunny day)</p> <p>0800 - Sgts. ROY and BERTRAND presented a comprehensive course in map reading and land navigation which was culminated in map problem required 3-4 hours to run. GRIMPASTE did extraordinarily well for a person with only four hours instruction.</p> <p>1700 - GRIMPASTE was dropped off in Holzkirchen while [ ] went on into Munich to pickup the radio equipment. (Four hours of home-work for GRIMPASTE.)</p> <p><u>Thursday 24 May</u> (heavy rain all day)</p> <p>0800 - Demolitions training until 1700. All types of explosives were explained and demonstrated before GRIMPASTE was allowed to arm and place the charges. Special emphasis was placed on field expediencies and charges that could be placed by a small guerrilla unit or one man. The latest charges were taught; i. e., ribbon, diamond, saddle, etc.</p> <p>1700/- The Radio (RS-1) was set up in the bunker on the demolition range</p> <p>2100 utilizing the Volkswagen battery as a power source. GRIMPASTE established contact with Frankfurt immediately and after a frequency shift passed a 28-group message and received a 20-group message. GRIMPASTE's ability as a radio operator was proven again under field conditions.</p> <p><u>Friday 25 May</u> (rain)</p> <p>0800/- Instruction in light weapons by Sgt. ROY including the M-14, M-1,</p> <p>1200 German MP 40 and M-3 "grease" gun. All weapons were disassembled, assembled, fired and cleaned by GRIMPASTE.</p> <p>1300/- Sgt. BERTRAND gave an illustrated lecture on Net organization and</p> <p>1700 security followed by a lesson on the selection, utilization and defense of DZ's and LZ's. Sgt. ROY then showed us some DZ's used in the Bad Toelz area and how and why they were selected.</p> <p>1700/- The second successful radio contact was established from the range</p> <p>2000 house using the Volkswagen battery as power. Total air time was fourteen minutes for the passage of two messages of approximately twenty groups.</p> <p><u>Saturday 26 May</u> (snow)</p> <p>0800 - Sgt. BERTRAND dropped by at the Range house to say goodbye and Sgt. ROY took us around the Bad Toelz area to demonstrate the proper placement of charges on bridges. (Sgt. ROY's privately-owned vehicle was used.)</p> <p>1130 - GRIMPASTE and [ ] departed Bad Toelz for Munich.</p> <p>1300 - GRIMPASTE departed Munich for Innsbruck via Kufstein.</p> <p>1400 - [ ] departed Munich after returning the radio equipment to [ ]</p> <p>1600 - [ ] arrived Berchtesgaden.</p> <p><u>SECURITY:</u></p> <p>4. GRIMPASTE was introduced in alias to Sgts. ROY and BERTRAND and was seen by S/Sgt. SILLS (Range NCO) nearly every day. The whole group was seen by members of the German Army using the range, but at no time did anyone in the Bad Toelz area hear GRIMPASTE speak anything but English. No one asked impertinent questions and GRIMPASTE volunteered no clue that would indicate that he was other than an English-speaking asset. He was always in proper fatigue uniform while on the military reservation. (We drove to the area in civilian clothes and changed in the Range house, bunker or car into uniform.)</p>

<p><u>COMMUNICATIONS:</u></p>		
<p>5. GRIMPASTE was assigned the GREBB-60 box for future mail contact. He was asked to allow a week for mail to reach us.</p>		
<p><u>FINANCE:</u></p>		
<p>6. GRIMPASTE was paid AS 1.5 per milometer for travel to Munich, DM 15. per day per diem and DM 100. for civilian salary compensation - total DM 260. In addition to this [ supplied all necessary uniforms, supplies, etc., for the training exercise.</p>		
<p><u>OVERALL C/O EVALUATION:</u></p>		
<p>7. The week was most worthwhile. An unusually large amount of information and training was packed into a few days. GRIMPASTE's desire, cooperation and energy made the fast pace possible. It is not expected that GRIMPASTE will retain all of his newly acquired skills over a long period of time, but with the help of the sanitized Special Forces Handbook, he should be an effective GW-UW asset. GRIMPASTE's training and assignment as a W/T Operator remains his primary duty in the event of hostilities, but his GW-UW skills can at least be applied to training others.</p>
